Built to perform in the toughest conditions, the 1600 Surface Mount Side Convoy Cam delivers reliable visibility where drivers need it most. Compact, durable, and designed for all-day performance, it's the side camera fleets can count on, especially for semi truck cameras and commercial truck camera systems that require dependable coverage. This camera enhances driver awareness by reducing blind spots along the sides of commercial vehicles, creating safer conditions on the road and supporting modern fleet camera system setups. From night vision capability to flexible mounting and viewing options, the 1600 delivers consistent visibility and peace of mind for fleets in any industry. This includes vehicles needing safe fleet cameras for side monitoring.
